# PRODUCT DATA SHEET

| | |
|---|---|
| Product ID | RGK1 |
| Description: | 17mm Screwgate Steel Karabiner |

| | |
|---|---|
| Accredited to: | EN 362: 2004 |
| Material: | Steel |
| Plating: | Zinc |
| Gate opening: | 17mm |
| External length: | 107mm |
| Closure type: | Screw gate |
| MBS: | 23kN |
| Weight: | 170g |

The RGK1 is mainly used for rope access and fall arrest applications but is also popular in the rescue industry.

The screwgate closure on this device means that the user must manually lock the RGK1 keeper after fitting. RGK1s are the basic universal karabiner used within the industry.
