

PRODUCT DATA SHEET

Product ID RGR1
Description: Rescue Tripod

Accredited to: EN 795
Material: Aluminium cast and extruded legs
Weight: 17.6kg
Fittings: EN 795 attachment points
Features: Portable and universally adjustable
Min / Max Height: 1.68m - 2.67m
Packed length: 1.37m
Footprint span: 1.8m
SWL: 200kg

The RGR1 Rescue Tripod is portable, lightweight and is easy to erect on site.

It has adjustable lower and middle legs at 80mm intervals to adapt and adjust to the most demanding surfaces and varying ground conditions. There are two additional anchorage points (SWL 200kgs each) on the underside of the head for additional primary / secondary systems. This unit has many applications such as confined access, entry, rescue, retrieval, manhole, silos & trenches, etc. The RGR1 is extremely versatile and is recommended for use with the side attachment of the RGR7 rescue winch and the RGR4 fall arrest & rescue recovery winch.
