

PRODUCT DATA SHEET

Product ID:
RGK26DC Slingky

Product Name:
Anchorage Sling with Wear Sleeve

Our new Anchorage Sling is specifically designed to allow users to utilise a girder or beam to anchor themselves quickly and safely.

It also benefits from being lightweight at only 24g/m. Made from our MT-X webbing using UHMWPE yarn produced by sister company MARLING LEEK. Extensively tested to be ultra-resistant to cuts and abrasion. Offers great breaking strength-to-weight ratio. Resistant to UV degradation and chemical attack. Features an integral outer wear sleeve offering further protection and durability.

Accredited to:

EN 795:2012 Type B

Material:

MT-X webbing (UHMWPE yarn)

Breaking load:

22 kN

Length/Weight:

1m = 0.07kg

2m = 0.15kg

Features:

Lightweight, versatile and abrasion resistant wear protector sleeve
