

Product ID:
RGL31

Product Name:
Ladder Restraint Lanyard

This short lanyard has been specifically designed for ladder restraint when a shorter lanyard is required. The two attachments points can be used to adjust the length between yourself and the ladder when climbing.

The restraint lanyard can only be used for work restraint because there is no shock absorption built into the system. It should never be used to extend another fall arrest product.

We use 37kN polyester webbing to manufacture this product which helps give the product a longer life. It is also treated with a water repellent coating which also extends the life of this product.

Accredited to:

EN 354:2010

Material:

26mm Water repellent Polyester 37kN

Fittings:

RGK11/SL

RGK1

Max arrest force:

Restraint only not to be used as fall arrest

Length(s):

0.56m, can be reduced to 0.44m

Features:

Scaffold Hook
