

Product ID:
RTLK3

Product Name:

Twin Kinetic® Tool Lanyard with Choke Loops and Belt Attachment 'O' ring

The RTLK3 is a twin tool lanyard with a Kinetic® and a standard, both with choke loops for tool attachment and an 'O' ring on the Kinetic® for retention of a tool. The Kinetic® is suitable for tools up to 10kg in weight, the standard 3kg.

Kinetic® webbing was originally developed for our fall arrest lanyards, but works the same when used in the event of a falling tool to reduce the potentially devastating shock involved.

A Kinetic® tool lanyard significantly reduces the risk of a dropped tool dragging the user off a platform, the risk below is also reduced as its deployed distance is shorter than the shock pack version.

Web material:

25mm water repellent polyester
20mm water repellent polyester

Length:

Kinetic 1.25m
Standard 1.22m

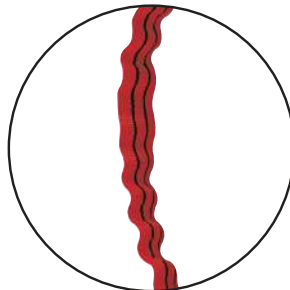

Webbing Strength:

>1000kg

Tool attachments:

210mm choke loop and 50mm 'O' Ring

Features:

Elasticated Webbing

Choke Loops

50mm 'O' Ring
