

## RGL3 BIGGUY

### TWIN LEG WEBBING LANYARD & SHOCK ABSORBER (Tested and approved for a user weight up to 140kg)

The Big Guy shock absorber lanyard range offers fall protection for users up to 140kg, when used with any RIDGEGEAR harness.

This lanyard comes with two aluminium, ANSI rated scaffold hooks which have increased gate strength.

An industry standard, and usually the minimum equipment issued/required with a harness for anyone working at height. We use 37kN polyester webbing to manufacture the lanyard which helps give the product exceptional strength and a longer life. It is also treated with a water repellent coating which also extends the life of this product.

The extra leg allows progression between anchor points by means of double clipping, and also optimum safety by ensuring the user is always connected. This system is generally used for tower climbing, steel erecting, scaffolding and maintenance to open structures.

The RGL3 Big Guy is supplied at a length of 1.4m including hooks/karabiners.

Shock absorber

ANSI approved scaffold hook

Accredited to: EN 355:2002

Material: 26mm RIDGE Protect anti-bacterial polyester\*
