

## **RGL6 BIGGUY**

## SINGLE LEG ELASTICATED WEBBING LANYARD & SHOCK ABSORBER (Tested and

approved for a user weight up to 140kg)

This lanyard comes with an aluminium, ANSI rated scaffold hook which has increased gate strength.

An industry standard, and usually the minimum equipment issued/required with a harness for anyone working at height. The elastic in the lanyard reduces the amount of hanging slack, which can help to lower trip hazards and entanglement. This lanyard should be used when the operative is working from a static position, connected to a fixed anchor point.

The RGL6 Big Guy is supplied at a length of 1.4m including hooks/karabiners.

Accredited to: EN 355:2002 Material: 35mm polyester

Fittings: 17mm steel screwgate karabiner (RGK1)

62mm aluminium double action scaffold hook (RGK88)
