

RGK27

POLYESTER SLING FOR ANCHORAGE, LANYARDS & MOUNTAINEERING

This range of anchor slings are a useful tool to create a temporary anchor device.

This sling can be used to wrap around an object to create an anchor point, where a scaffold hook cannot be attached. Can withstand repeated use.

Can also be used as a mountaineering sling and lanyard.

We offer a range of sizes which are identified by colour coded webbing.

Accredited to: EN 795:2012, Type B
EN 566:2017
EN 354:2010
